

September 06, 2025:

I am being spied upon inside of my home by the USA military and intelligence community.

I am writing these messages to alert law enforcement agencies in a public forum that the military of the United States of America is being used to control criminal gangs in my area.

These criminal gangs are working on behalf of criminals from the USA military to exert an unlawful intrusion into my life at all times of the day and night.

I am also alerting the general public that it is my sincere belief that the USA military is intentionally driving innocent people to commit criminal acts because of the full-spectrum unlawful force that is being exerted against certain members of the community.

If you are a member of the USA military, or if you are a member of any American law enforcement agency: I am specifically alerting your office that members of your own team are committing very serious criminal acts against my home.

I have alerted local police, state police, and federal police about this unlawful use of the American military and intelligence apparatus to cause us harm and mental anguish. The only response that I have received is an ongoing continuation and escalation of these criminal intrusions into my life. I have no other choice except to alert you publicly about the criminal nature of your agencies.

American Military, American Intelligence Community, State Police, and Local Police: your agencies are captured by criminals that are operating from inside of the USA government. I regret to inform you that you are no longer representing the 'good' people of the world, but are instead protecting the interests of a large criminal gang.

I have no other choice. I am being suppressed by criminals that are being controlled from inside of the American government as the government spies on my every movement inside of my own home. As these spies watch my daily life, they continue to exert forces against my home to drive illegal messages into my life that are intending to be a private nuisance that create a severe condition of emotional distress.

I am alerting you all to the truth of the criminals that are controlling the American government at this very moment. **This is an emergency message to you and your agency!** If you are in the position of helping us, then please do so. We are experiencing severe harm from this criminal enterprise and we are reaching out to members of the government in all areas for help.

Please look into the leadership of your own agencies. I am assuring you that this problem is originating inside of the highest levels of every agency. I am specifically accusing your bosses of being involved in a criminal organization that is suppressing the best and brightest among us. I am living an innocent life that wants nothing more than to be a good person in this world and a group of spies and criminals is working diligently every day to destroy me and my progress.

American law enforcement agents, you are the people that have the power to help me and my family. **You must turn your agencies inside out to root out the evil that has taken hold of your organizations.** Our world depends upon your attention to ridding your own agencies of the criminals that are intentionally destroying America.
